

### In-home Dance Floor Recommendation

“Just took my first class with my harlequin marley and I can feel a difference. Really good traction and it lays flat without having to tape it down. If the students are willing to invest I think it’s great. It cost me \$97.50 with shipping and took exactly 3 weeks to get here.” Ashley Hathaway, Carolina Ballet Principal Dancer and RSB faculty member

We reached out to Harlequin floors and they are currently out of the studio floor but are offering the cascade floor. The Harlequin representative told us that the cascade floor is perfect for ballet and pointe and it is what ABT is recommending for their students. At this time your order should arrive within 14 business days.
